Dixie Lake

2026

Beginning Balance: $78,000.00

Date	Type	Notes
1/2/2026	Permit	2026 Permit Authorization

Application Date	Type	Target Species	Quantity	Dose Rate	Cost	Remaining Balance
4/1/2026	Permit Fee		1.00 each		$1,000.00	$77,000.00
Invoice 24515 Total					**$1,000.00**	**$77,000.00**

Survey Date	Type	Crew	Water Temperature	Weather	Notes
5/4/2026	Survey	NIK, PJH	57 F	Sunny	Moderate milfoil around most of the lake. Algae growth significant in major bays and canals.

Treatment Date	Type	Target Species	Quantity	Dose Rate	Cost	Remaining Balance
5/12/2026	Flumioxazin	Chara Starry Stonewort	1.75 acre(s)	200.00 ppb	$437.50	$76,562.50
5/12/2026	Algae control (chelated copper only)	Filamentous or Planktonic Algae	20.00 acre(s)		$1,700.00	$74,862.50
5/12/2026	Flumioxazin @ 100 ppb + Diquat dibromide @ 1 gal/acre	Curly-leaf Pondweed Eurasian Milfoil	31.75 acre(s)		$7,937.50	$66,925.00
Invoice 25183 Total					**$10,075.00**	**$66,925.00**

Survey Date	Type	Crew	Water Temperature	Weather	Notes
5/28/2026	Survey	Nik Krantz	NA (drone survey)	sunny	Floating algal mats observed along the south shoreline, SW and NW coves, and the north end of the lake.

Treatment Date	Type	Target Species	Quantity	Dose Rate	Cost	Remaining Balance
6/1/2026	Algae control (chelated copper only)	Filamentous or Planktonic Algae	8.00 acre(s)		$680.00	$66,245.00
Invoice 25522 Total					**$680.00**	**$66,245.00**

Project Work Journal

Dixie Lake

2026

Beginning Balance: $78,000.00

Survey Date	Type	Crew	Water Temperature	Weather	Notes
6/3/2026	Survey	NIK + MD	NA (drone survey)	sunny and calm	Abundant macroalgae along shorelines and in bays and coves. Some nuisance natives nearshore

Treatment Date	Type	Target Species	Quantity	Dose Rate	Cost	Remaining Balance
6/15/2026 - 6/23/2026	Harvesting		5.50 acre(s)		$3,300.00	$62,945.00
6/15/2026 - 6/23/2026	Harvesting of starry stonewort		21.00 acre(s)		$14,700.00	$48,245.00
Invoice dixie1.26 Total					**$18,000.00**	**$48,245.00**

Survey Date	Type	Crew	Water Temperature	Weather	Notes
6/22/2026	Survey	NIK, Maggie Dobry			Harvest inspection - noted abundant algae

Treatment Date	Type	Target Species	Quantity	Dose Rate	Cost	Remaining Balance
7/1/2026	Algae control (filamentous and planktonic)	Filamentous or Planktonic Algae	25.00 acre(s)		$1,875.00	$46,370.00
Invoice 25728 Total					**$1,875.00**	**$46,370.00**

Survey Date	Type	Crew	Water Temperature	Weather	Notes
7/20/2026	Survey	NIK + MD	82	cloudy	Milfoil spread across lake, especially dense in NW bay, abundant wild celery along shorelines

Treatment Date	Type	Target Species	Quantity	Dose Rate	Cost	Remaining Balance
7/27/2026	Loosestrife control		1.80 acre(s)		$234.00	$46,136.00
7/27/2026	Triclopyr liquid	Eurasian Milfoil	6.75 acre(s)	4.00 gallons/acre	$2,362.50	$43,773.50
7/27/2026	SeClear G @ 50 lbs/acre	Starry Stonewort	5.75 acre(s)		$2,012.50	$41,761.00
7/27/2026	Chelated Copper Liquid @ 9 gal/acre + Hydrothol @ 0.5 gal/acre	Wild Celery	7.50 acre(s)		$3,562.50	$38,198.50
Invoice 26066 Total					**$8,171.50**	**$38,198.50**

Dixie Lake

2026

Beginning Balance: $78,000.00

Survey Date	Type	Crew	Water Temperature	Weather	Notes
8/4/2026	Survey	NIK + MD	80	partly sunny	Milfoil treatment having good effect. Dense nuisance natives and macroalgae along most of shoreline and select offshore areas is ready for harvest.

Treatment Date	Type	Target Species	Quantity	Dose Rate	Cost	Remaining Balance
8/13/2026 - 8/19/2026	Harvesting	Nuisance Native Plants	17.50 acre(s)		$10,500.00	$27,698.50
8/13/2026 - 8/19/2026	Harvesting of starry stonewort	Chara Starry Stonewort	11.75 acre(s)		$8,225.00	$19,473.50
Invoice dixie2.26 Total					**$18,725.00**	**$19,473.50**

Survey Date	Type	Crew	Water Temperature	Weather	Notes
8/24/2026	Survey	NIK	74	cloudy	Milfoil treatment was successful. Select areas are ready for a third harvest, but more areas will be ready later. Mapped out phragmites.

Treatment Date	Type	Target Species	Quantity	Dose Rate	Cost	Remaining Balance
9/15/2026	Phragmites control	Phragmites	2.00 acre(s)		$260.00	$19,213.50
Invoice 26153 Total					**$260.00**	**$19,213.50**

Survey Date	Type	Crew	Water Temperature	Weather	Notes
9/18/2026	Survey	NIK	68	sunny	abundant pondweed and wild celery nearshore, milfoil scattered around shoreline, starry offshore

Treatment Date	Type	Target Species	Quantity	Dose Rate	Cost	Remaining Balance
9/28/2026 - 10/4/2026	Harvesting of starry stonewort	Nuisance Native Plants Sago Pondweed Starry Stonewort	25.50 acre(s)		$17,850.00	$1,363.50
Invoice dixie3.26 Total					**$17,850.00**	**$1,363.50**

Total Invoiced: $76,636.50

Remaining Balance: $1,363.50
